## Decision Due On Drink Sale

The thorny question of soft drink sales at North Central School, which has been hanging fire since last fall, was held for final action at its Feb. 1 session by the County School Board at a recessed meeting last Saturday in the hope the anticipated wholesale price hike may be settled by then.

Presently drinks are sold by machine at 10 cents a bottle, the profit going to the school activity funds.

(EDITOR'S NOTE—The wholesale price of soft drinks went up 30 cents a case this week.)

Walter J. Phillips, attorney for the board, urged some decision be reached as to sales and price, taking the view that if drinks were sold they should be for the prevailing price.

North Central Superintendent R. E. Webb submitted figures on funds benefiting from the drinks. Athletic fund receipts have totaled \$1,946.42 with \$1,835.43 expended, leaving a balance of \$110.99. Basketball can take care of itself as expected with a winning team, he noted, and some more funds may come from concessions at the two tournaments scheduled at North Central. But after that, with any luck, the team will go on the road for tournaments, entailing housing and food costs. He added that he hopes to have a recommendation shortly for the board on policy about awarding athletic jackets if it is interested.

The activities fund now has a balance of \$1,069.18, Webb continued, and part of that may be needed for bills on classrooms aids for the new school since the board had only limited funds. "All of this money goes for the benefit of the children," he observed.

The new county superintendent of education, K. G. McCarty, voiced strenuous criticism to the 10 cent drinks and challenged circulating a petition in the area involved to "show him (Webb) the position is not worth a dime."

Phillips cautioned that "would just add fuel to the fire."

Mrs. C. C. McDonald, vice chairman, remarked she could not understand McCarty's position that the children were "being robbed" when the proceeds from the sales were used to

their benefit. "They don't have to buy the drinks," she admonished.

Trustee S. P. Powell recalled his original position that every single machine should be taken off the premises, urging that milk should be the only beverage sold.

McCarty made it clear he does not approve of the price telling Webb, "If you don't follow my recommendations on this, buddy, don't look to me..."

At the onset of the meeting Mrs. McDonald asked for clarification of statements made at the previous Saturday's session about signing in and out of bus drivers, Webb, who did not attend that session, reported that has been in practice since school opened in September, as well as a check of gas and oil charged to each bus. "It's not a matter of lack of supervision from our end," he declared in presenting his figures. McCarty said he would make it his personal responsibility to initial orders for every part going into every bus in the county.

The vice chairman observed that the board is designed to set policy and had not encumbered itself with details in the past, although that seemed necessary with a change in administration. She suggested the minutes reflect fully and accurately matters coming before the board as well as its decisions as a guide in the future.

She noted that the county hospital plans were for nurses aide (Cont. on Page 7.)

## State Speeds Work For New Kiln Road

**WELL EQUIPPED SERVICEMEN** - Coast Electric Servicemen Curtis Holman, in truck with two-way radio, and Assistant Serviceman Lloyd Shubert are typical of the many service units used in the three county area served by the firm. The truck carries fire extinguishers and first aid equipment.

## Joint Session Called On Boat Landing Ramp

Supervisors learned Tuesday morning the moving of the Waveland owned gas line on Highway 603 which has been a major factor blocking the state repaving of the roadway from Kiln to the Nicholson Avenue-U. S. 90 intersection will be done by the State Highway Department.

In other matters the board called a joint meeting with representatives of the Bay-Waveland Yacht Club to discuss a county-city launching ramp; awarded additional bids for 1960 county equipment; and set working hours for county prisoners on public roads.

A letter from V. M. Guy, engineer of maintenance, stated the highway department passed on order Jan. 12 for the construction, maintenance and upkeep of the roadway.

As soon as a full road width survey is completed by State District Engineer J. F. Brownlee the supervisors will obtain any additional easements deemed necessary, according to Board President R. G. Hubbard Jr.

The board agreed to publish a letter from the U. S. Army Engineer District at Mobile asking that complaints against the proposed height reduction from 16 feet to 12 feet at high water level on the Bayou La Croix bridge. The engineers, contracted by the state to construct the bridge in the proposed repaving of Highway 603, said it would be too expensive to construct a new bridge at 16 feet.

The supervisors will continue to maintain the present roadway pending construction and reconstruction of the new one.

Supervisors and representatives of the yacht club are to meet at 9 a.m. Wednesday to discuss the possibility of constructing a public boat ramp adjacent to the club harbor.

August Scaffidi, Chamber of Commerce boat ramp chairman, explained the state attorney general had advised the proposed project be county sponsored rather than city as originally planned. He said questions concerning ownership of the jetty scheduled for the ramp will be solved easier if the county sponsored the project.

Manual working hours from 8 a.m. to 5 p.m. with one hour for lunch five days a week were set for county prisoners after Waveland Mayor Garfield Ladner asked that the prisoners be used to clean up broken down pliers along Beach Boulevard.

The board instructed Sheriff Gerald V. Price to have a prison guard supervising the prisoners and work should begin immediately on the public roads clearing weeds and debris.

Board Attorney Sam Favre advised that prisoners in jail on felonious crimes cannot go out of the building.

Construction of an extra outside entrance in the sheriff's outer office was directed after Price complained there were not enough exits during the heavy traffic in the office at tax collecting time. The lowest of three bids will be accepted for the door construction.

Remodeling of the Courthouse was postponed until the new supervisors could go over their accounts. Hubbard said architect's plans had already been (Cont. on Page 7.)

## Injunction Continued At Hearing

The preliminary injunction against Weston Lumber Co. and its officers was continued by U. S. District Judge Sidney C. Mize after a hearing last Saturday subject to reconsideration on five days notice by the defendants.

The injunction restrains the defendants from using any funds belonging to the corporation for their personal use, and from encumbering, selling or conveying any assets of the company without prior approval of the court.

The plaintiff, Dorothy Weston Robinson, Birmingham, Ala., claims that defendant Harold B. Weston, president of Weston Lumber Co., has been paid sums far in excess of the amount to which he was entitled and disproportionate to the value of any services rendered by him to the company. The other individual defendants are officers of the company and relatives of the president.

Weston Lumber Co. ceased its active sawmill and lumber operations in the early 30s and since then has disposed of much of the over 100,000 acres of land it once owned.

Attorneys for the plaintiff are Dan M. Russell Jr., Bay St. Louis, and George R. Smith, Gulfport. Representing the defendants are Bidwell Adams, Gulfport, and Forrest Jackson, Jackson.

## Marine Sought In Car Theft

An AWOL Marine is still at large after abandoning a stolen auto and two Bay St. Louis youths in Collins, according to Sheriff Gerald Price.

Price said the suspect, identified as Edward Nattin, 19, had been staying with the Frank Ellis family on Webb Street before he allegedly stole a 1956 Oldsmobile belonging to Ben Hille sr. about 7 p.m. Monday.

He was accompanied to Collins by Louis Ellis, 11, and Frank Jr., 9, who were picked up by Collins police about 11 p.m. Monday. After leaving the brothers and the Hille auto in Collins, Nattin is reported to have stolen another car, Price said.

The youths were brought back Tuesday morning by their parents and Deputy Sheriff Johnny Kachler brought the Hille auto back later that day. No charges were filed against the two brothers.

## We're Growing

Haverty's Supermarket at Waveland's Coleman Avenue will open Feb. 1 with a formal grand opening at a later date, according to Lester M. Haverty, owner and operator. The store is affiliated with Independent Grocers Alliance.

**OH, MY ACHING BACK** - Five days of basketball is to be telling on Berlin Necaise, one of North Central's ball stars, but it didn't stop him from sinking another lay-up Saturday night in the Bay High Tournament to help beat Car for their fourth straight tournament title (See Page 11).

## HS Top Seeded Coast Meet

North Central meets Pass Christian High tonight in the session of the Gulf Coast Athletic Tournament that last night in the North gym. Top seeded Bay will play its first game Saturday night against Perkinston.

The Hawks and Tigers scored to win which would two rival schools in the Saturday night in a long-for game. This would be fourth encounter, North winning two and Bay High twice Jan. 6 by 68-63, a widely cheering crowd in the gym. Bay High got leading on the basis of its scheduled conference.

Hawks are highly favored to contest with Pass High having defeated the Tuesday night 107-43, the first time this year team has broken the streak.

Bay Necaise hit for 20, Springer McCoy Peterson Douglas Necaise 15, Wayne Hald Ray 9, Donald Wayne O. J. Peterson and A. L. Lader 6, Donald Necaise and Lader 5, John Necaise 4 and Lader 1.

High's Tigerettes are scheduled to meet Harrison Central tonight, the winner to play North Central's Friday.

The opening round of competition Wednesday night Perkinston boys defeated Long Beach and Harrison Central Ocean Springs 87-41. Bay girls won by forfeit Ocean Springs because some were ill.

Bay's schedule is at 6 p.m. North Central girls vs. Bay.

## Query Jury Selection

Newly elected supervisors from Beats 2, 3 and 4 are waiting for an opinion from the state attorney general to determine if they can name their own jury lists for the Spring term of court.

Supervisors I. M. Frierson, Beat 2; Charles Lavingshouse, Beat 3; and James Necaise, Beat 4, have requested to name another jury list for their beats rather than use the list submitted by

the supervisors who went out of office Jan. 4.

Board Attorney Sam Favre said the jury lists were named immediately before the old supervisors' terms ended rather than in April as stated by state law, although the Supreme Court has ruled in other cases that the jury lists don't have to be named in April.

To be selected for jury duty one must be a qualified elector able to read and write and have paid the 1960 state poll tax. Favre said he expects to have the opinion for the board Monday.

## Jaycees Name 6 More Units

Six additional committees for the Junior Chamber of Commerce have been appointed by Mike Haas, president, and the board of directors, bringing the number of functioning groups to nine.

The new committees and their chairmen are membership, Richard Burge; finance, Dr. Robert McKinley Jr.; political action, Dr. A. K. Martinovich Jr.; Mardi Gras float, Eldo Depree; constitution and by-laws, Gerald Gex, and extension team, Tom Logue. Previously listed were industrial, J. Norton Haas Jr.; community development, Dr. Frank Schmidt, and March of Dimes, John Ginn.

The Jaycee group set up at the Bay end of the toll bridge last weekend collected a sizeable amount for the March of Dimes and Ginn expects to resume solicitation this weekend. The industrial and political action committees met jointly Wednesday night to discuss their efforts to attract industry to the community.

A welcoming committee is (Cont. on Page 6.)

## Poll, Property Tax Deadline is Monday

Monday is the final day to pay state poll taxes and voters are required to have the 1960 poll tax receipts to ballot in the congressional primaries next August and the Bay St. Louis city elections in 1961.

Collections on the taxes will not be totaled until Feb. 20, according to Mrs. Wallace Jeanfreau, chief office deputy to Sheriff Gerald Price sr., but she reports that poll taxes have been coming in real good.

Monday is also the last day to pay ad valorem real property taxes and school taxes without penalty.

Waveland municipal taxes are to be paid to Waveland Town Marshal and Tax Collector Fred Bourgeois at the Town Hall, while

## Waveland Mothers To March Friday

The 1960 Mothers March in Waveland for the March of Dimes solicitation has been set for 7 p.m. Friday instead of today as originally scheduled, according to Mrs. Theo Tudury, county chairman. Mrs. Fred Bourgeois is director of the Waveland march.

## Chamber Hears Projects

# Bridge Signals Due

About a dozen and a half suggested programs for the Hancock County Chamber of Commerce to undertake in the coming year were submitted by the membership at a general meeting Monday night at the Bay St. Louis Youth Center.

A. G. Dantagman, president, said the board would take them under consideration, to determine priority referring to the city administration those he felt fell under their jurisdiction and to the board of supervisors those of county-wide nature.

The Rev. Charles R. Johnson announced that Roger Heltzmann had written to the Southern district highway commissioner, John Smith, asking for left-turn arrows at the Bay end of the toll

bridge and was informed they are planned in the near future.

A progress report on the proposed small boat launching ramp adjacent to Bay-Waveland Yacht Club was submitted by August Scaffidi, committee chairman, and Lucien Raymond, surveyor who is assisting in defining necessary property lines. Raymond suggested that the chamber committee, yacht club and city and county governing bodies meet to discuss acquisition of the proposed site.

Mrs. John Green, secretary-manager of the chamber, announced that the Louisville and Nashville Railroad has agreed to publish the industrial survey and labor supply study of the county, compiled last year by the cham-

ber. Mississippi Power Co. will bring the facts up to date since that time. The brochure is due

about March 1, Mrs. Green said. Dantagman observed that in (Cont. on Page 12.)

**TALES OF PROGRESS** - Martin R. Marhal, owner of Marhal Industries, Waveland, tells members of the Hancock County Chamber of Commerce at Monday night's general membership meeting of the proposed new plant on U. S. 90 which will manufacture aluminum building products. At least 24 persons will be employed in the new plant which expects to open Oct. 1.

**HONORED BY HARRISON BAR** - District 8 Chancellor William Hewes congratulates M. Russell Jr. after the unveiling of an oil portrait of Russell's father, the late District 8 Chancellor D. M. Russell Sr., in Gulfport Monday. The late chancellor served from 1928 to 1957. The portrait will be displayed permanently in the courtroom of the Harrison County courthouse was commissioned and financed by the bar association members.

not be interested in continuing if  
the garage is moved back to Bay

\$40 a month for the shop storage.  
After discussion of service and

withdrew the motion when other  
members noted the short time  
allowed. Possibility of construct-  
ing facilities at North Central for  
those buses was raised with the  
thought it would also provide  
mechanical training for students.  
Bay service facilities might be  
provided for those from Logtown

Phillips was told to prepare  
a resolution conveying a part of  
the old Kiln School property to  
the Church of the Annunciation,  
straightening out some of the  
lines shown in a survey prepared  
by J. Roland Weston, surveyor.  
It will involve additional property  
but the board plans to reserve  
the timber for a specified period.

## Lower Clearance Asked for Bridge At Bayou La Croix

The State Highway Depart-  
ment has applied to the U. S.  
Army Engineer District at Mobile  
for approval of revised plans  
for the proposed bridge over  
Bayou La Croix at Mile 4.

The plan is to reduce the  
vertical clearance of the pro-  
posed bridge from 16 to 12 feet  
above the mean high tide because  
deep muck at the site makes the  
higher clearance too expensive.

Protests must be filed at the  
District Engineer's office, Room  
7, Building 2, 2301 Grant St.,  
Mobile by Feb. 20 or it will be  
considered there is no objection.

## Guatemala-Bound Bus In Main-90 Mishap

A 1959 Ford school bus that  
was being delivered to Guatemala  
hit the rear of a 1959 Vauxhall  
station wagon about 5 p.m. last  
Thursday at U. S. 90 and Main  
St., causing approximately \$30  
damage to the wagon, accord-  
ing to Beat 5 Constable Arthur  
Garcia who investigated. There  
were no injuries, he said.

Garcia said the car driven  
by Mrs. Elizabeth White of Pear-  
lington, was waiting for the signal  
light to change when it was struck  
by the bus driven by Alberto  
Lopez of Chavez, Guatemala.

## City School Enrollment Hits Peak

Enrollment in the Bay St.  
Louis public schools stood at  
1,510 during December, the high-  
est in its history, according to  
Superintendent J. D. McCulloch.  
The number includes 1,047 white  
students and 463 Negroes.

McCulloch compared this  
total with that of six years ago,  
when enrollment was less than  
700, noting the increase is more  
than double.

A breakdown of the figures  
at Bay High shows 44 seniors,  
83 juniors, 102 sophomores and  
94 freshmen.

In the lower grades, there  
are 79 in the eighth, 85 in the  
seventh, 87 in the sixth, 93 in  
the fifth, 91 in the fourth, 96 in  
the third, 86 in the second and  
107 in the first.

At Valena C. Jones there are  
376 in elementary and 87 in high  
school.

## FBI Check Due On Six Youths

Hancock County Sheriff Ger-  
ald Price sr. is waiting now for  
a Federal Bureau of Investiga-  
tion fingerprint identification on  
six youths arrested Tuesday near  
the Courthouse.

Price said he and Deputy  
Sheriff John Kachler picked the  
youths up Tuesday after they had  
been trying to solicit enough  
money to get their two automo-  
biles across the Bay St. Louis  
toll bridge.

A rifle was found in one of  
the cars, both of which were  
convertibles. One was a late  
model Cadillac bearing Illinois  
license plates 2179461 while  
the other was a Plymouth with  
California plates KPW-417.

Price said that several of  
the youths have previous records.

## Basic to Mississippi's Growth

For many years, Mississippi has been  
attracting new industries and new investment  
capital by providing a favorable place for them  
to operate. The result has been new jobs, new  
payrolls and signs of growth all over the state!

Keeping pace with this growth, your tele-  
phone company has spent over 53 million dollars  
in the last 3½ years to improve and expand  
Mississippi's phone service. That takes new  
investment capital, too, which not only contrib-  
utes to the state's economy, but also is needed  
in order to provide an essential service to the new  
industries Mississippi so diligently seeks.

To continue attracting new industries to the  
state, Mississippians must make sure that busi-

nesses both old and new are allowed to earn a  
reasonable profit. That's basic to Mississippi's  
continued growth.

# Shoulda Gone Fishin' Gulfview to Host County Tournament

BY EDDIE ENGELHORN

The less said about fishing last weekend the better. "The weather was horrible," said one New Orleansian who ventured out in a boat. "I wish I had listened to my wife."

Ice was evident in many of the bayous and canals but we still contend fish can be caught in freezing weather. They are slower (who isn't) and deeper but sometimes they bite better during a freeze. Of course, rainy, muddy water is no help.

Joe Colson had a sign in his window Tuesday "fresh redfish" so we ventured in. There was only one left and it was a beauty, about five pounds — didn't know who caught it.

Commercial fishing appears to be pretty good. Willie Strong is advertising trout, mullet, etc. Spring fishing is just around the corner and March winds will find many speed hull owners bouncing their way to the Keys. Joe Kern will be among the first arrivals, probably accompanied by his pretty bride.

So we turn to basketball. The season is in full swing but is fast approaching the end, somewhere around the middle of February but there will be little rest for the young athletes, most of whom will start spring football practice.

Bay High's tournament was a big success, the greatest ever, according to Superintendent Joe McCullough. We were there every night and the kids played to a full house nearly every session. The stands seat about 1,200 people and there were five nights of play; also Saturday afternoon. Everybody was there including Mayor John (Babygrand) Scaffide, who held down one end of the court, Commissioners Cyril

Glover and Warren Traub holding down the other.

The kids played their hearts out and our sympathy to the losers, especially the coaches who were seen slinking through the hallways, their chins on their chests.

The Gulf Coast Conference Tournament began last night but no Hancock County teams play until tonight when the North Central boys meet Pass Christian High. This promises to be another rip-roaring affair, well worth the drive to North Central, just a few miles north of Kila. We are again hoping to see the Hawks meet the Bay High Tigers in the finals.

Coach Lance Lumpkin and industrial arts professor Frank Lacher deserve an award as the county's best prophets. Tuesday morning, in the coach's office before the Bay High tournament started, they teamed up and wrote down their choice for each game. After the tourney they opened the envelope and found they were 100 per cent correct in the boys' division and missed only one game in the girls'.

We heard of a hunter who equips his duckblind with a piano stool which enables him to turn and shoot in any direction. Pretty slick but if he would find another hunter who could play Tiger Rag or something on a duck caller he could bring the piano and have a jam session while waiting for the ducks.

## North Central Wins Two From Gulfview

Getting off to a fast start, North Central's elementary boys basketball squad downed Gulfview 49-17 Monday night in Gulfview's gym. The North Central girls edged Gulfview's lasses 22-20 in the opener.

High scorers for North Central were Don Smith 15, Bobbie Necaise 10, Eugene Lader 8 and C. Lader 6. For Gulfview, Paul Pursley 9, Tommy Smith 6 and Parker Davenport 2.

Score by quarters:

## Mrs. Gex and Mrs. David Win In Golf Play

Mrs. Powell Glass Jr. led the way with a low net of 37 in the weekly ladies day tournament Tuesday at Pass Christian Isles Golf Club. Because of already winning during the month, the prize went to the next low scorer, a tie between Mrs. Wilbur Johnston and Mrs. Walter Gex Jr. with net 41's. Mrs. Gex won on the toss.

Mrs. Glass and Mrs. John David tied for low puts at 15, Mrs. David winning on the toss. Mrs. Glass defeated Mrs. Walter C. Russo 4 and 3 to win the monthly match play.

Others attending the luncheon and participating were Mesdames Frank Stevens, Don Prentice, Johnny Griffin, Tom McAuley, John Ellis, Guy Bufkin, Ed Perry, Norman Renshaw, Frederick Whitlock, Bache Whitlock, Frank Moore, Ben Maginnis, Katherine Reading, Ben McMath, Jane Borden, John McDonald, Ruth Polk, H. S. McWhorter, Agnes Merritt, and Misses Ann Liversedge, Maud and Julia Frye, Lucille Russ of Jackson and Mrs. John Frith of Cleveland, Ohio.

Tournament Chairman, Mrs. David, announced the 18-hole tournament play will begin Tuesday, for those with handicaps of 30 or less. The ringer tournament is limited to the weekly Tuesday play.

An invitation has been received from the Oak Knoll Country Club of Hammond, La., to a nine-hole tournament Wednesday, Feb. 24.

Mrs. H. S. McWhorter is in charge of next Tuesday's luncheon.

**REBOUND** - North Central's high scoring Donald No. 53 steals a rebound from two Carriere players in the Bay High tournament finals.

**GIRLS' TOURNAMENT WINNERS** - Mary Jo Krieger receives her trophy Saturday night after the St. Joseph's Academy Gold Jays won the Bay High Tournament. She and sister Elizabeth are highest scorers in the area.

**FOUR IN A ROW** - Coach James Johnson and the North Central Hawks, Bay High tournament winners, receive trophies from Commissioner Warren Traub. It is the fourth consecutive tourney they have won this year.

## North Central, St. Joseph in Bay High Invitational

Hancock County schools took part in the 1960 Bay High invitational tournament last week in a contest with teams from other counties and Louisiana. About 5,000 people witnessed the school authorities es-

North Central's Hawks won the trophy and St. Joseph's Gold Jays copped the runner-up trophy after five consecutive air-raising action that was the area's finest talent go down to defeat the mighty Hawks and Carriere, tricky Jays.

North Central's Hawks won the trophy and St. Joseph's Gold Jays copped the runner-up trophy after five consecutive air-raising action that was the area's finest talent go down to defeat the mighty Hawks and Carriere, tricky Jays.

Central's high scorer Douglas No. 66, Donald and Bar-

ney got 50 each, John 38 and Wayne 27. Barney hit for a sensational 28 in the Long Beach game.

Score by quarters:  
North C. 16 13 10 15 - 54  
Carriere 11 4 14 18 - 47  
The Gold Jays fought their way to a 47-46 victory in the final quarter of their contest with the Carriere girls in an exciting game that kept the spectators on their feet until the last buzzer sounded.

Trailing by three points at the first quarter, four at the half and end of the third, the Krieger sisters began finding the net to tie the score. With seconds to go, Jay fans held their breath as captain Frankie Matherne steadied her nerves and hit the bucket for a free throw to put St. Joseph's ahead by one point. A deafening silence filled the gym when a Carriere girl got the ball, streaked down court, aimed and threw for what could have been the winning margin but the ball circled the hoop twice, refusing to drop in the net as the final buzzer sounded. The building shook to its foundations from the ensuing roar.

Mary Jo Krieger amassed 79 points for the four-game series followed by sister Elizabeth with 75. Mary Jo got 29 in the game with Ocean Springs Friday.

Score by quarters:  
S. J. A. 7 14 10 16 - 47  
Carriere 9 16 10 11 - 46  
Bay High's Tigers were eliminated Saturday afternoon in the semi-finals by Carriere in a heartbreaker, 56-57. Coach Wilmer Seymour had to bench Bill Watts in the third period because of four fouls, putting him

back in the fourth but he fouled out. Bill was not feeling well and the lads missed his rebounding strength.

Guard Paul Miller came within a fraction of an inch of heroism when, with three seconds left, he worked the ball down court and shot from the free-throw line but missed, a shot he can usually make blind-folded.

Scoring 21 points in the Carriere game, Ronnie Peterson led the attack in the Tigers' three game with a total of 44. Bill Watts had 29, Barry Stephens 28 Woody Alliston 26, Tommy Godwin 18 and Paul Miller 16 in two games.

Score by quarters:  
Bay High 12 16 15 14 - 57  
Carriere 15 18 12 13 - 58  
The Tigers beat St. Stanislaus' Rock-A-Chaws Friday 53-46 in a rip-roaring, tension-packed contest that saw the Tigers get off to a substantial lead but the Rocks came back after halftime to take the second half by two points, not quite enough. For the Rocks, Charley Lam got 12, Terry Ladner 11, Pat Matherne and Ronnie Artigues 8, Gary Blaise 4, Louis Genard 2 and E. J. Babin 1. For Bay High, Ronnie Peterson 13, Woody Alliston 12, Bill Watts 11, Barry Stephens 8, Gregory Necaise 7 and Tommy Godwin 2.

Bay High's Tigerettes advanced to the quarter finals but were knocked out Friday by Harrison Central 39-35. The Tigerettes got off to a slow start but warmed up after half time to win the third quarter by 2 and the fourth by 5. Had there been more time the girls would certainly have won.

## Wausau Story

by H. H. Shattuck, Manager

Coast Electric Power Association, Bay St. Louis, Mississippi

"In cities and on farms, electric service is so reliable that you might never give a thought to the men who keep the power flowing without interruption.

"However, the men are aware of what their jobs mean to you. I know the crews at Coast Electric take pride in providing the power that serves so many purposes. Besides lighting our homes and running appliances, new applications are being added all the time.

"The Grass House is an example. This 12 by 20 foot building houses a Hydroponic Green Feeds Unit. In the picture above, E. M. Brignac, Jr. (right) shows me how oats is grown in metal trays, using water and chemicals instead of soil. About 1000 pounds of green feed for the Brignac herd is produced this way every day. Electricity provides the

'sunshine', the light needed for growth. Electricity controls ventilation and maintains the ideal temperature.

"As safety engineers will tell you, the interest our crews take in their work is a part of what keeps men from having accidents on the job. Safety is a matter of attitude as well as awareness—training, too, and teamwork.

"When it comes to teamwork, we're fortunate in having Employers Mutuals people working with us. They have years of experience in serving hundreds of power companies from coast to coast. With their help, we've built a record that spans over 5 years and adds up to more than 500,000 man-hours without a single lost-time accident. We say Employers Mutuals are 'good people to do business with!'"

500,000 man-hours... more than 5 years without a lost-time accident. This record is significant when you realize that "hot line" crews deal with 12,000 volts of electricity, maintain service 24 hours a day in all kinds of weather. Here Mr. Shattuck adds the gold plaque to the safety trophy awarded by Employers Mutuals of Wausau.

Employers Mutuals of Wausau has offices all across the country. We write all forms of fire, group and casualty insurance (including automobile). We are one of the largest in the field of workmen's compensation. Consult your telephone directory for the nearest Wausau Man or write us in Wausau, Wisconsin.

talking with prospective businesses about locating in the county he has learned an industrial brochure is an absolute necessity, and standard practice is that such material is on file with the railroad serving the area and the State Agricultural and Industrial Board.

Discussing prospects of growth in Hancock County, the president described the current scene as the best ever. He called for formation of a 12-member women's greeters committee to introduce the wives of business and industry prospects to the community.

Merlin Markel of Markel Industries, Waveland, was introduced as a leading manufacturer in the county, a position attained in the span of a few years. He reported that since announcing his expansion plans, he has received applications at the rate of two a day for jobs from president to janitor.

The programs suggested for concentration this year included urban renewal, boost your community, beautification, widening Main Street in Bay St. Louis, city and county roads and drainage, sewage and drainage, city street improvement, long range planning, roadside parks, traffic control and parking, industrial development and financial cooperation, black cleaning and improvement, local public housing facilities, small bus diversified industry and tourist reception.

## Dean Posts Roadblock, Nabs Pair

A short chase on U. S. 90 ending about 300 yards from the Mississippi state line led to the capture by Hancock County Sheriff Constable Harlan G. Dean of two New Orleans men wanted in connection with the armed robbery of a Gulfport motel early Tuesday morning.

Dean said the two robbers, Aubrey J. Bergeron, 19, and George A. Elliott, 25, ran his roadblock but stepped after he overtook them on the highway.

Approximately \$200 was recovered by Dean from the roadside where it had been thrown by the thieves after he overtook them.

He was notified by Gulfport police immediately after the robbery and set up the roadblock after spotting the auto and passing it.

The pair is being held in the Harrison county jail after being bound over for the grand jury Tuesday afternoon. They waived a preliminary hearing on charges of armed robbery.

Malcom Anderson, superintendent from Lamar County, and Harry Sones, superintendent from Pearl River County.

Other members of the Board currently serving are G. H. Allen, superintendent from Marion County; Aubrey Lowe, W. O. Moody, J. E. Mitchell and A. H. Knight, all of Pearl River County; the Rev. S. P. Powell of Hancock and Everett Eaton of Lamar.

## PRJC Board Organizes

Frank Fortenberry of Columbia was elected chairman of the board of trustees for Pearl River Junior College at its biennial reorganization meeting Jan. 11. He succeeds A. H.
